Services

Software Implementation and Application Modernization Services - Full analysis of software systems, processes, and manual functions and we implement cost-effective, modern, and agile, scalable solutions.

Cyber-Security - End to end cyber-security solutions including risk analysis, compliance management, identity, access, device management, encryption, data loss prevention (DLP), intrusion detection and prevention systems.

Custom Software and Mobile Application Development - Bespoke software and mobile app development.

Process Improvement and Robotic Process Automation (RPA) - We offer business process transformation services that improve the productivity and accuracy of internal resources as well as update legacy business processes.

Machine Learning and Data Analytics (MLDA) - MLDA allows our customers to improve their business by giving our clients access to tools and Machine Learning capabilities that deliver actionable insights that improve and streamline business as well as save money.

Enterprise Resource Planning Managed Services - Expertise in enterprise-level implementation, program management, managed services, and organizational transformation. Our consultants consistently perform more effectively and efficiently than internal resources. Our teams have experience supporting large scale enterprise systems for Fortune 500 companies and can deliver on a fixed scope or an ongoing support basis.

Internet of Things (IoT) - Our IoT solutions allow companies to take advantage of a robust, secure, and powerful grid of connected devices and infrastructure. Information can be analyzed, leveraged, and integrated into effective business operational efficiencies and revenue sources.

Talent Augmentation Services - We provide talent augmentation including technology, engineering, cyber-security, and non-technical staff augmentation to fill critical organizational skill gaps on an as- needed or permanent basis.

Training and Certification - Our training and certification programs work in conjunction with our other solutions, or as stand-alone upskill and improvement tools. We partner with the Project Management Institute (PMI) and CompTIA to offer IT training and certifications.
